COMPETITIVE WHOLESALE PRICES TO PLANTERS

Effective: December 15, 1932
For thirty years we have furnished planters with the best.

Most of our citrus trees are propagated from Fruit Growers Supply Company
pedigreed performance record buds, and can be purchased on sweet,
or sour root stock, as desired by the purchaser.

SHIPPING INSTRUCTIONS AND TRANSPORTATION — Give your nearest railroad station and the method of transportation you want used. Orders of 50 trees or more delivered within a 100-mile radius of Riverside, with our trucks, without additional charge.

ACCOUNTS — All orders placed must be accompanied by a 20 per cent deposit unless other arrangements are made. 10c per tree additional charged on orders of less than 10 trees.

PACKING CHARGE — We charge only enough to cover the cost of materials.

VISITORS — Our nurseries and offices are always open to visitors. We are always glad to have interested parties inspect our stock, which will prove to them that our products are the best that experience, good cultivation, and favorable conditions can produce.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

WRITE FOR REDUCED PRICES ON LARGE ORDERS OF 1500 TREES OR MORE
A DESCRIPTIVE CATALOG WILL BE MAILED UPON REQUEST

FOR more than a quarter of a century, the Tetley Nurseries have supplied fruit trees in ever increasing quantities. This long experience in the practical study of growing trees has made it possible to develop trees of strongest growth, on a variety of root stock adaptable to different growing conditions, and budded with first-generation Fruit Growers Supply Company buds, whose known production is of record for a period of 4 to 7 years; known to produce the best quality and largest quantity of fruit.

All of our nurseries are growing on virgin soils, thus eliminating any and all root diseases. This, together with the long growing season and frequent irrigations, are all factors that make it possible for us to furnish you trees of superior quality. This is the foundation of our success in furnishing you a product excelled by none.

Our sweet root stocks are propagated from seeds from the famous Mother Tree at Bidwell's Bar, 78 years old, also from other reliable large individual seedling trees in Southern California. Our root stock is superior to any other grown.

Every detail in the process of propagation of fruit tree stocks is carefully and scientifically attended to. Every tree leaving our nursery has attached to it an individual pedigree tree number which guarantees you that all trees supplied are true to name and are as represented.

We realize and accept this great responsibility, in the building up of California's most valuable horticultural industry.
